Product Name:

Indicator sterilz ethylene oxide time temp moisture gas 1000s

Special Features:

Ethylene oxide; single use; provides linear scale presentation that proper conditions of time, temp, moisture, and gas concentration have been met during the sterilization cycle; further processing after completion of aeration cycle is not necessary; unit q type 1000

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T396-a
