## **Accessory Components And Quantity:**

(2)wronghs (9)intorchange tubes: (1)s ıel; ırd

(2)wrenchs (8)interchange tubes; (1)support tray assembly; (1)post tray; (1)tray clamp assembly; (2)shelves; (2)cross rails; (1)drain pane
(4)rail assembly tubes; (2)light arm extensions; (2)light adaptors; (2)u-shaped arm assemblys; (2)birch armboards assembly; (2)armboards
clamp assemblys; (2)50 watt light emitting diode (led) lamps: (2)d rings with straps; (2) ea. Right and, left corner assemblys.
Universal Medical Device Nomenclature System Code:
13961
Unit Type:
Portable
Product Name:
Fst or table
Special Features:
Reusable carrying container; 53 in. Lg., 26 in. W, 25 to 33 in. Working height; use w/all military litters; end tray assembly, anesthesia
shelf 1; frame assembly refuse bag w/4 clips attached by 10 in. Nylon cord 1; foot adjuster assembly, non-slip 2; stand assembly,
instrument tray use w/tray 6530-00-793-9750 1; for surgical procedures in far forward operations
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
T265-h
