Current Type:

Ac/dc

Lampholder Quantity:

0

Portability:

Portable

Features Provided:

Oxygen powered

Product Name:

Ventilator volume portable:

Voltage In Volts:

110.0 and 230.0 and 11.0 and 30.0

Special Features:

Single phse; self-contained in carrying case; 50 or 7 psig compressed air source required; gas power source required to be functional; for compressed filtered air supply order 6530-01-319-8234; for controled ventilation to non-breathing patient and assisted ventilation patient

Frequency In Hertz:

50.0 and 400.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T133-f
