Product Name:

Basic qa phantom

General Description:

Tissue mimicking designed to perform testing for dead zone or transducer ring-down, vertical measurement calibration, horizontal measurement calibration, focal zone, sensitivity, axial-lateral resolution, functional resolution definition and fill-in; urethane rubber tissue mimicking material; freezing point -40 deg. C; melting point 100 deg. C; line targets monofilament nylon; 20 by 17 by 8 cm

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
