Overall Thickness:

1.0 millimeters

Unit Package Quantity:

4

Unit Package Type:

Case

Features Provided:

Sterile

Special Features:

Cardiac cooling jacket; small adult size; flexible jacket with internal 1.0 mm polyethylene foam layer; malleable aluminum skeleton/backbone; cold, recirculating sterile saline in a polyurethane cooling channel maintains myocardial temperatures below 10 degrees centigrade; apex flap; used for all types of cardiac surgery requiring aortic cross clamping

Material:

Plastic polyethylene

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T087-a
