Product Name:

Patient loading system specialized aluminum ramp

Exterior Container Weight:

3500.00 pounds

Special Features:

Specialized aluminum ramp used for enplaning and deplaning ambulatory and litter patients on boeing 767 and kc-135 aircraft; stored and transported in two reusable, stackable containers; allows patients to be loaded from the ground level to the forward passenger door level of the b-767 and forward cargo door of the kc-135 aircraft; can be assembled and disassembled within 2.5 hours; dim in containers: 137 in. L by 68 in. W by 85 in h; dim. Operational: 50 ft. 3 in. L by 65 in. (walkway) w; max. Payload cap. 1500 lbs distributed with a factor of safety of four; operational environment temperature: -40 degrees f to +140 degrees f; service life: 25 years

Unit Of Issue Cube:

1080.00 cubic feet

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
