Inside Diameter:

10.000 inches

Overall Length:

20.500 inches

Overall Height:

15.500 inches

Overall Width:

19.750 inches

Current Type:

Ac

Inside Length:

16.000 inches

Accessory Components And Quantity:

Two instrument trays are provided

Voltage Rating:

220.0 volts or 240.0 volts

Individual Motor Quantity:

1

Motor Current Type:

Ac

Motor Voltage In Volts:

120.0

Heat Transfer Method:

Pressure steam

Closure Method:

Manually operated door with left hand hinge. Microswitch prevents inadvertent start of cycle before door is locked

Product Name:

Sterilizer surgical instrument & dressing120/240v ac press steam

Special Features:

Steris ten sixteen tabletop steam sterilizer; uses distilled or deionized water only; four preprogrammed cycle selections on a large control panel

Material:

Steel, stainless

Material:

Stainless steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T265-c
