Environmental Protection:

Puncture resistant

Closure Fastening Type:

Twist

Material And Location:

Plastic, polypropylene single wall

Opening Location:

Top

Material Thickness And Location:

2.0000 millimeters single wall

Preprinted Legend:

Universal biohazard symbol

Product Name:

Bag autoclaveable biohazard 2.0ml 8x12in 400s

Special Features:

48x12 ideal for processing biohazardous material which require autoclaving prior to disposal, without temp indicator, bag withstands 135 degree c autoclave temp, twist-tie closure allows bag to expand and vent during cooling, case of 400

Color:

Orange

Special Test Features:

Meets 165g dart drop standard performed as required by astm d1709-98

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A11100
