**Environmental Protection:**

Puncture resistant

**Closure Fastening Type:**

Twist

**Material And Location:**

Plastic, polypropylene single wall

**Opening Location:**

Top

**Material Thickness And Location:**

2.0000 millimeters single wall

**Preprinted Legend:**

Universal biohazard symbol

**Product Name:**

Bag autoclaveable biohazard 2.0ml 8x12in 400s

**Special Features:**

48x12 ideal for processing biohazardous material which require autoclaving prior to disposal, without temp indicator, bag withstands 135 degree c autoclave temp, twist-tie closure allows bag to expand and vent during cooling, case of 400

**Color:**

Orange

**Special Test Features:**

Meets 165g dart drop standard performed as required by astm d1709-98

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A11100
