Overall Height:

28.000 inches

Overall Width:

26.000 inches

Voltage In Volts And Current Type:

110.0 ac

Product Name:

Filtering unit microporous pcr uvc chamber with hepa

Special Features:

Still air enclosure pcr (uvc) chamber; contains both fluorescent and uv germicidal lamps; uv system rated at 254 nm to decontaminate all interior surfaces; 0.5 in thick optically clear front panel; effective against beta rays, but not gamma rays; removable doors; removable doors and side access panels; proximity sensors turn off power to uv system when doors are opened; power requirements: 110-115 v, 60 hz, w/ 2 amp circuit breaker; outside dimensions: 26 in w x 23 in d x 28 in h; inside dim.: 23.5 in w x 17 in d x 21 in h; includes hepa filter

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
