Diameter:

5.250 inches

Length:

16.300 inches

Product Name:

Oxygen cylinder, air-certified, resuscitator

Special Features:

Service pressure: 2216 psi (153 bar); oxygen capacity: 625 l (22 cu ft); diameter: 133.4 mm; length: 414.0 mm; empty weight: 3.7 kg (8.0 lb); material: aluminum alloy 6061-t6; finish: brushed body with green dome and heat sensitive clear coat finish

Material:

Aluminum alloy

Shape:

Cylindrical

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T265-d
