Mounting Type:

Floor

Overall Length:

77.000 inches

Overall Width:

29.000 inches

End Application:

Digital exercise testing systems

Voltage Rating:

Between 200.0 volts and 240.0 volts

Unit Type:

Electric

Power Source:

Cord

Motor Current Type:

Ac

Features Provided:

Adjustable

Product Name:

Treadmill

Special Features:

0-25 percent grade continuously variable; belt speed 0mph start-up; 0 to 13.5 mph speed range; handrails front and side; max rated load 450 lbs; 3hp driver motore; self-calibrating for speed/grade; digital control; interface capabilities

Frequency In Hertz:

60.0 and 50.0

Supplementary Features:

Single-phase, 20 amp, nema 6-20 r wall socket-dedicated circuit recommended; 2 stopping modes; 60-inch walking surface; interfaces with exercise testing systems and cardiac assessment systems for exercise

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T265-h
