Design Designation:

Top sheet

Features Provided:

Adjustable and connecting tube and durable and insulated and motor/pump housing combination and reusable

Product Name:

Blanketrol iii hyper-hypothermia system with active cooling technology

Special Features:

Includes adult, pediatric, and infant sizes; dimensions of the circulation unit are 17 inches x 17 inches x 37.5 inches (w, d, h); temperature range is 4.0-42.0 degrees celcius; flow rate is 42 gallons/hour (115v) and 36 gallons/hour (230v)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T087-a
