End Application:

6530-01-645-4992

Physical Form:

Vial

Product Name:

Indicator, sterilization steam bio rapid read out

Special Features:

Steam biological indicator; sterilization super rapid read out 50s; self contained biological indicator designed for rapid and reliable qualification testing and routine monitoring of 270 degrees f and 275 degrees f gravity-displacement steam sterilization processes when used in conjunction with the 3m attest auto-reader 490; best storage under normal room conditions, 49-86 deggrees f; do not store near sterilants or other chemicals

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T396-a
