Usage Design:

For premature and low birthweight infants

Size Designation:

Infant

Product Name:

Diaper infant's premature and low birthweight disp 500s

Special Features:

For infants that do not weigh more than 1200 grams; outer film: microporous, breathable polypropylene; absorbent material: thermal bonded absorbent core with a super absorbent polymer; inner film: soft, non-woven polypropylene; pouch in the crotch area easily holds a cotton ball or gauze square to catch urine for extraction; absorbent material of the diaper is a superior gel product which keeps the infant drier, thus reducing the risk of skin maceration; a cut-out to avoid contact with the umbilicus, finger-lift tabs for easy retaping, and a microporus outer material which allows air circulation and urine detection; can be used for infants under bili-lights
