Current Type:

Ac

Portability:

Portable

Product Name:

Scanner ultrasonic ocular biometry 120/230 volt 50/60 hz ac

Voltage In Volts:

120.0 and 230.0

Special Features:

A-mode, b-mode diagnostic ultrasound; 45 to 55 degrees muscle to muscle field of view; 5x magnification w/zoom function; w/self-contained "b" mode and miniaturized full sector scanner; 10 mhz "a" mode biometric transducer probe; mobile stand; adjustable table and slit-lamp chin support; camera and adapter not provided; for use in intraocular measurements and real time diagnostic imaging

Frequency In Hertz:

50.0 and 60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T133-f
