Current Type:

Ac

Design Designation:

Goldman

Product Name:

Auto perimeter 300

Special Features:

Provides rapid and reliable results via network compatible platform, capable of data sharing, remote system accessibility, patient comfort, and clinical workflow optimixing ease of use. Uses diamond or accuate test point achieves accuracy and precision through high density static, kinetic, and flicker perimetry. Compliant with internationally recognised goldmann specifications. Works seamlessly with the optosadvance providing a comprehensive image management solution using industry standard dicom solution.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T146-j
