Identification Designator:

Automated blood collection system

Sterility:

Sterile

Usage Design:

Platlet, plasma, rbc collection

Product Name:

Trimal accel collection system

Special Features:

Customized collection system based on donor physiology and blood center needs

Functional Description:

Online, automated centrifuge - seperates whole blood into leukoreduced componets

Special Markings:

Ispt/ean

Relationship To Similar Equipment:

Same as 717-800-400 except ispt labeled

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23800
