Overall Length:

91.250 inches

Overall Height:

21.750 inches

Overall Width:

22.250 inches

Storage Temperature Range:

+35.0/+90.0 degrees fahrenheit

Unpackaged Unit Weight:

55.000 pounds

Product Name:

Patient isolation unit piu

Special Features:

Patient evacuation system; standard components include: gloves, glove o-ring outer, blower, battery cases, lithium batteries (non-rechargeable, used w/ blower and led lights), canister (c2a1) hose assembly, blower exhaust, power control module, conversational communications unit (ccu), alkaline batteries for ccu, headsets, communications extension, headrest cushion, ekg cables, instruction manual, stays (piu structure support), led light strip, spares kit (c/o gloves glove o-ring outer, batteries for ccu, led light strips, canister c2a1, and medical kit) one-time use expendable item; no maintenance while in storage or in use; packaged in a vacuum sealed mylar bag for long-term storage; once opened, shelf life is 7 days or 24 hour transport with a contaminated patient, whichever comes first; airworthy certification for c/kc-135 and hh-60g aircraft

Functional Description:

One-time use patient evacuation system used to transport highly contagious patients exposed to a biological contaminant

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
