Usage Design:

For alkaline phosphatase determination

Test Capability Quantity:

48

Protective Storage Feature:

Requires refrigeration between 2 degrees to 8 degrees c

Product Name:

Test kit alkaline phosphate level

Component Breakdown Within Each Test Kit:

1 color chart; 1 test tube rack; one 4 ml sodium hydroxide solution; 48 test tablets; 48 test tubes

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510v0
