Usage Design:

Determinations of hemoglobin s

Test Capability Quantity:

100

Protective Storage Feature:

Expiration dated

Product Name:

Test kit hemoglobin s determination 100s

Test Media:

Blood

Component Breakdown Within Each Test Kit:

Shall contain sufficient saponin/sodium hydrosulphite powder and buffer phosphate solution; package insert

Special Features:

Item has hazards of toxic, irritant and flammable.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510v0
