**Usage Design:**

Quantitation of fibrinogen concentration in plasma

**Test Capability Quantity:**

50

**Protective Storage Feature:**

Requires refrigeration between 2 degrees to 8 degrees c

**Product Name:**

Test kit fibrinogen determination sufficient for 50 tests

**Component Breakdown Within Each Test Kit:**

Bovine thrombin reagent; assayed fibrinogen calibration reference; owens veronal buffer

**Exterior Container Weight:**

11.00 pounds

**Exterior Container Cubic Measure:**

0.509 cubic feet

**Exterior Container Quantity:**

12

**Unit Of Issue Cube:**

0.0424 cubic feet

**Supplementary Features:**

D-day item for dod

**Unit Of Issue Weight:**

0.9167 pounds

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A510v0
