Usage Design:

For alkaline phosphatase determination

Test Capability Quantity:

200

Protective Storage Feature:

Requires refrigeration between 2 degrees to 8 degrees c

Product Name:

Test kit alkaline phosphatase level 200 tests

Component Breakdown Within Each Test Kit:

Ten 16 ml vial substrate; one 16 ml vial liquid buffer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510v0
