Physical Form:

Powder or liquid

Usage Design:

For rh testing procedures

Derivation:

Bovine

Primary Container Type:

Vial

Primary Container Content Quantity:

10.000 milliliters

Total Primary Container Quantity:

15

Product Name:

Albumin serum reagent bovine 10ml vial 15 vials per package

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A10000
