**Usage Design:**

Hemoglobin-s detection

**Test Capability Quantity:**

100

**Protective Storage Feature:**

Requires refrigeration between 2 degrees to 8 degrees c

**Product Name:**

Test kit hemoglobin-s detection sickle cell qs for 100 tests

**Component Breakdown Within Each Test Kit:**

Two 100ml bt sickle-sol buffer; two 25ml bt reagent powder; 1 lined card

**Supplementary Features:**

Medsep item for dod, baxter healthcare

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A510v0
