Physical Form:

Lyophilized

Protective Storage Feature:

Requires refrigeration between 2 degrees to 8 degrees c

Primary Container Type:

Tube

Primary Container Content Quantity:

1.000 milliliters

Total Primary Container Quantity:

10

Product Name:

Coagulase plasma lyophilized reconst to 3ml f/direct tube 1ml10s

Special Features:

Reconstitutes to 3.0 ml; for direct tube method

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A10000
