Product Name:

Control strip reagents suitability type 30s

Exterior Container Weight:

30.00 pounds

Special Features:

D-day item for dod

Unit Of Issue Cube:

0.1389 cubic feet

General Description:

Consists of a preset battery of 8 microtubes for the performance of 8 biochemical tests for the determination of reagent suitability; for use w/nsn 6550-01-046-2912 enterobacteriaceae differentiation test kit; reagents quality controlled by this procedure shall include 6550-01-139-7485 n, n-dimethyl-alpha-naphthylamine reagent; 6550-01-153-6988 ferric chloride solution, reagent; 6550-01-153-6991 kovacs reagent; 6550-01-139-7484 a-naphthol reagent; 6550-01-153-6987 potassium hydroxide reagent; and 6550-01-139-9544 sulfanilic acid reagent; 30 batteries per package; note: g
