Usage Design:

Use visual colorimetric method

Test Capability Quantity:

25

Protective Storage Feature:

Requires refrigeration between 2 degrees to 8 degrees c

Product Name:

Test kit glucose-6-phosphate dehydrogenase detr 25 tests

Component Breakdown Within Each Test Kit:

25 vials of glucose-6-phosphate dehydrogenase; one 25 ml vial buffer; one 100 ml vial mineral oil

Supplementary Features:

Medsep item for dod, sigma chemical co

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510v0
