Usage Design:

For agglutination serology testing

Test Capability Quantity:

150

Product Name:

Test kit antistreptolysin o titer determination 150 tests

Component Breakdown Within Each Test Kit:

1 six ml vial asl reagent; 1 one ml vial positive control; 1 one ml vial negative control; 1 reaction slide

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510v0
