Usage Design:

Detecting unexpected antibodies

Protective Storage Feature:

Requires refrigeration between 2 degrees to 8 degrees c

Product Name:

Test kit antibody detection red blood cells

Component Breakdown Within Each Test Kit:

Ten 3ml vials red blood cells; one 2ml vial dilvent; one 1ml vial pooled cord cells

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510v0
