**Usage Design:**

Hemophilus and neisseria identification

**Test Capability Quantity:**

20

**Product Name:**

Test kit haemophilus aneisseria ident 41 components qs f/20 test

**Component Breakdown Within Each Test Kit:**

1 dropper tube rapid nh reagent; 20 nh panel (w/10 wells); 20 report sheets

**Supplementary Features:**

Medsep item for dod, innovative diagnostics systems

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A510v0
