Usage Design:

Hemophilus and neisseria identification

Test Capability Quantity:

20

Product Name:

Test kit haemophilus aneisseria ident 41 components qs f/20 test

Component Breakdown Within Each Test Kit:

1 dropper tube rapid nh reagent; 20 nh panel (w/10 wells); 20 report sheets

Supplementary Features:

Medsep item for dod, innovative diagnostics systems

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510v0
