Physical Form:

Liquid

Usage Design:

F/use in blood hemolobin analysis

Primary Container Type:

Vial

Primary Container Content Quantity:

2.000 milliliters

Total Primary Container Quantity:

50

Product Name:

Reference standard blood chemistry 2ml vial 50 vials per package

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A10000
