Physical Form:

Powder

Primary Container Type:

Vial

Primary Container Content Quantity:

2.000 milliliters

Total Primary Container Quantity:

6

Product Name:

Control creatine kinase powder an abnormal level ii 2ml 6s

Special Features:

An abnormal level ii control used iin performing total ck/mb and ld//1 isoenzyme determinations

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A10000
