Usage Design:

Anaerobe identification

Test Capability Quantity:

25

Protective Storage Feature:

Requires refrigeration between 2 degrees to 8 degrees c

Product Name:

Test kit anaerobe identification sufficient for 25 tests

Component Breakdown Within Each Test Kit:

Twenty-five 20-welled strips; 25 incubation covers; 25 report sheets

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510v0
