**Usage Design:**

Visual colorimetric method

**Test Capability Quantity:**

100

**Protective Storage Feature:**

Requires refrigeration between 2 degrees to 8 degrees c

**Product Name:**

Test kit glucose-6-phosphate dehydrogenase determination 100test

**Test Media:**

Blood

**Component Breakdown Within Each Test Kit:**

100 vials of glucose-6-phosphate dehydrogenase; one 50 ml vial buffer; two 100 ml vial mineral oil

**Supplementary Features:**

Medsep item for dod, sigma chemical co

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A510v0
