Physical Form:

Gelatin

Protective Storage Feature:

Requires refrigeration storage between 2 to 8 degrees celsius

Primary Container Type:

Dish, petri

Total Primary Container Quantity:

10

Product Name:

Culture medium blood agar base gelatin petri dish 10s

Special Features:

Item needs to be refrigerated between 2-8 degrees c. Blood agar (tsa with 5% sheep blood); format: monoplate; pack of 10.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A10000
