**Usage Design:**

For use on stratus 1 or stratus 2

**Test Capability Quantity:**

120

**Product Name:**

Test kit theophylline determination 129 components 120 tests

**Component Breakdown Within Each Test Kit:**

1 eight ml vial conjugate; 2 ten ml vials substrate; 6 five ml vials calibrator; 120 reagent tabs

**Special Features:**

Impregnated w/theophylline antibodies

**Supplementary Features:**

Medsep item for dod, baxter healthcare corp. Dade div.

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A510v0
