**Physical Form:**

Lyophilized powder

**Usage Design:**

For evaluation of various test methodologies

**Derivation:**

Human

**Primary Container Type:**

Bottle

**Total Primary Container Quantity:**

4

**Product Name:**

Control urine chem normal lyophilized powder 15ml reconst bt 4's

**Special Features:**

15 ml per bottle after reconstitution; normal

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A10000
