Usage Design:

Used for pathology solution

Primary Container Type:

Vial

Primary Container Content Quantity:

20.000 milliliters

Total Primary Container Quantity:

100

Product Name:

Formaldehyde sol modified for pathology solution 20ml/vial 100s

Special Features:

10 percent v/v of formaldehyde solution usp; ph 7.0; 3.7 percent w/v formaldehyde

Supplementary Features:

Medsep item for dod, lyne labs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A10000
