Physical Form:

Gelatin

Primary Container Type:

Tube

Primary Container Content Quantity:

9.000 milliliters

Total Primary Container Quantity:

100

Product Name:

Culture medium thioglycollate gelatin w/o indicator 9ml/tu 100s

Special Features:

W/o indicator; w/.16% agar w/trimethoprim, vancomycin, polymixin b, cephalothin, and amphotericin b; for campylobacter isolation

Supplementary Features:

Medsep item for dod, remel labs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A10000
