Physical Form:

Gelatin

Protective Storage Feature:

Requires refrigeration between 2 degrees to 8 degrees c

Primary Container Type:

Tube

Primary Container Content Quantity:

9.000 milliliters

Total Primary Container Quantity:

100

Product Name:

Culture medium thioglycollate 9ml tube 100 tubes per package

Special Features:

W/o indicator; w/dextrose, hemin, and vitamin k; 15 x 103 mm size tube

Supplementary Features:

Medsep item for dod, remel labs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A10000
