**Physical Form:**

Liquid

**Usage Design:**

For use with nitrate reagent a and c in determining the nitrate reduction reaction of bacteria

**Primary Container Type:**

Vial

**Primary Container Content Quantity:**

0.500 milliliters

**Total Primary Container Quantity:**

50

**Product Name:**

Nitrate reduction test liq vial .500 ml u/w nitrate reagent a&c 50s

**Special Features:**

Reagent b

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A10000
