Physical Form:

Liquid

Usage Design:

For use with nitrate reagent a and c in determining the nitrate reduction reaction of bacteria

Primary Container Type:

Vial

Primary Container Content Quantity:

0.500 milliliters

Total Primary Container Quantity:

50

Product Name:

Nitrate reduction test liq vial .500 ml u/w nitrate reag a&c 50s

Special Features:

Reagent b

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A10000
