Physical Form:

Lyophilized

Usage Design:

For immunoassay in drug therapy programs

Primary Container Type:

Vial

Primary Container Content Quantity:

5.000 milliliters

Total Primary Container Quantity:

6

Product Name:

Control human serum 5ml vial 6 vials per package

Special Features:

Normal level; capable of monitoring 69 constituents per vial

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A10000
