Usage Design:

Use w/abbott tdx/flx analyzer

Test Capability Quantity:

100

Protective Storage Feature:

Requires refrigeration between 2 degrees to 8 degrees c

Product Name:

Test kit phenytoin determination 100s

Component Breakdown Within Each Test Kit:

Reagent packs 2x50 tests; 100 sample cartridges; 100 cuvettes

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510v0
