**Usage Design:**

Use w/abbott tdx/flx analyzer

**Test Capability Quantity:**

100

**Protective Storage Feature:**

Requires refrigeration between 2 degrees to 8 degrees c

**Product Name:**

Test kit phenytoin determination 100s

**Component Breakdown Within Each Test Kit:**

Reagent packs 2x50 tests; 100 sample cartridges; 100 cuvettes

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A510v0
