Usage Design:

For use w/abbott tdx/flx analyzer

Test Capability Quantity:

100

Protective Storage Feature:

Requires refrigeration between 2 degrees to 8 degrees c

Product Name:

Test kit n-acetylprocainamide determination 100 tests

Component Breakdown Within Each Test Kit:

Reagent packs, 2 x 50 test; sample cartridges, 100; cuvettes, 100

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510v0
