Usage Design:

E coli detection

Test Capability Quantity:

100

Protective Storage Feature:

Requires refrigeration between 2 degrees to 8 degrees c

Component Breakdown Within Each Test Kit:

2 bt of test latex particles sensitized w/specific rabbit antibody reactive w/0157 antigen; 2 bt control latex particles sensitized w/pre-immune rabbit globulins

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:
