**Usage Design:**

E coli detection

**Test Capability Quantity:**

100

**Protective Storage Feature:**

Requires refrigeration between 2 degrees to 8 degrees c

**Component Breakdown Within Each Test Kit:**

2 bt of test latex particles sensitized w/specific rabbit antibody reactive w/0157 antigen; 2 bt control latex particles sensitized w/pre-immune rabbit globulins

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A510v0
